PROFESSIONAL SUMMARY

Backend Developer with 1.7+ years of experience designing, building, and optimizing RESTful APIs using Node.js, Express.js, and MySQL. Skilled in relational database design, complex multi-table joins, indexing, and SQL query optimization. Proficient in writing clean, maintainable backend logic using the MVC architecture, JWT-based authentication, and middleware. Experienced in integrating APIs with React frontends and collaborating in Agile teams to deliver scalable, high-performance backend systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Backend: Node.js, Express.js, REST API Design, MVC Architecture, Middleware, JWT Authentication, Authorization

Databases: MySQL, Relational Schema Design, Query Optimization, Indexing, Multi-table Joins, Pagination

Frontend: React.js, HTML5, CSS3, Bootstrap

Tools & Practices: Git, GitHub, Postman, npm, VS Code, REST API Testing, Debugging, API Documentation, Agile/Scrum

PROFESSIONAL EXPERIENCE

Backend Developer (Node.js)

Sep 2024 – Present

Bharat Clouds Private Limited — Trichy, India

- Developed and maintained backend services for iFillip, an AI-powered school-management SaaS platform serving multiple educational institutions.
- Designed and built academic-performance analytics REST APIs that aggregate engagement data across multi-thousand-row MySQL tables.
- Engineered an Exam Class-Performance Heatmap API joining 8+ relational tables with server-side pagination and rank-based sorting.
- Optimized MySQL queries and indexing strategies, significantly reducing API response times for class-strength endpoints.
- Refactored controllers using clean model-controller (MVC) separation, improving code testability and maintainability.
- Implemented reusable utilities for paginated responses and risk-bucket filtering, reducing duplicated logic across modules.
- Migrated legacy PHP modules to a modern Node.js + Express.js stack.
- Built backend modules for Anna IAS Academy, including student management and exam-result publishing APIs.
- Collaborated with clients to define API contracts and supported the React frontend team for seamless API integration.

Frontend Developer Intern

Nov 2023 – Feb 2024

Internship Program — New Delhi, India

- Built responsive web pages and UI components using HTML5, CSS3, Bootstrap, and vanilla JavaScript.
- Developed React.js mini-projects featuring REST API integration and client-side form validation.
- Strengthened fundamentals in component-based architecture and state management.

PROJECTS

iFillip — AI-Powered School Management SaaS

- Contributed backend modules for academic analytics, attendance tracking, and student ranking.
- Implemented health-score computation and surfaced results through analytics dashboards.

Anna IAS Academy (AIASA) — Coaching Institute Management

- Built backend REST APIs supporting the full student lifecycle: enrollment, exam scheduling, and result publishing.

Portfolio Website — giricodes.netlify.app

EDUCATION

Master of Science (M.Sc.) in Computer Science

2024

Bishop Heber College, Tiruchirappalli, Tamil Nadu, India
